### Taken rend triang

l. A joint, and within the near fature and into alt. The mine, enemained as National, Corps, and Province Levels and white energy vice and think a strictly at the Disturb level, he are the provide all U.S. elements, and ultimately an agencies,

with purposeful guidance and sumport. Unia machinise should be directly responsive to Deputy CONUSCACY (FD) and chould support joint decision-making by a Mission level coordinating committee chaired by Deputy CONUSCACY (RD) and including senior intelligence and operations representatives of MACY, OSA and OCO.

- 2. It is recommended that an Infrastructure Intelligence Collection and Exploitation (ICEX) Staff be created, to support Deputy CONUSMACV (RD). This will be a joint civilian/allibary staff, which will have managerial, staff and reporting functions. The staff will have the following composition: Director; Deputy Director and Executive Secretariat; an Intelligence Group, Operations Group, and Reports Management Group. The ICEX Staff will have the following general missions and January.
  - a. Develop, coordinate, review and make recommendations requiring basic programs for mounting abtacks on the VC interstructure, local irregular forces, and related problems;
  - b. Monitor and review programs and openations relables to the astrack and elimination of the infrastructure;
  - to licentify and highlight problem are sentent.
  - d. witor and review operational process of and performance at Sector (Province), darps (Suries), and Mational levals, in order to ensure coordination, integration and the attainment of high levels of performance. Recommend corrective actions.
  - o. Conduct and develop coordinated staff staffet, althation rateries and analyses, and coordinated staff recent, adding coordinated staff recent, adding
  - 1. Conduct field investigations and reviews, call jupare obsff analyses and recommendations.
  - 3. Pollowing are recommended components of form country
  - a. Office of the Director: Mistion and Fortions, the Director, ICEX will be the Scalor V.S. coordinator for organism one the overall estack on the infrastructure, and in this capacity fill support Deputy COMUSMACY (RD) and the mission committee forms I above). The Executive Officer will function at reportable for committee mostings and will perform such administrative

support function for the YCRA as the director say from the to time remained the partitle strengt the form counties should encourage the GYA to create an analogous organization and to appoint a counterpart for the Directions.

- b. Intelligence Group: I legion, furtherm to form the Intelligence Group will be compased of two seminy intelligence officers, one from MAGV J-2 and one from OSA, and one stenographer. It will:
  - (1) Provide or arrange for the presentation within ICEX of current intelligence brisings, daily and veelily summary reports, and openial intelligence protentations as relate to infractructure.
  - (2) Organize and manifor the proparation and coordination of special inter-agency field inbulkigance studies and estimates concerning the VC infrastructure and local irregular forces.

Mainbain close and combinating liains a little principal intelligence production clampabs while the American Micaion.

- (4) Review, directly, sale stad cappedian of the sample set will, as obtained from various cleanable and a continu. Special abbustion in this regard is directed topolis a looked contared decreasing, thick traid particular interplacing into effectiveness evaluation of the actual on the infinitiveness.
- (3) Develop an imbolligence evaluation system for theserving progress and impact in the attack on infrartrusture.
- c. Gaerations Great: Missien Fractions and Ch. Marthen. We adopt for this element the "ricgit: Lineges" college. Ind Program Managers will be senior operational and management personal, drawn from appropriate agencies to bandle three specific programs (see below). Each Program Manager will have a deputy, drawn from the opposite service (as OSA Program Manager will have a MACV deputy, and vice-verse). A Cotal of the (5) officers and three (3) eleck typists is the estimated requirement. General mission and functions are:
  - (A) To undertake management proviou and supervision of cortain specified and identified programs.
  - (2) To conduct and econdinate planning a livibious, the establishment of requirements, etc.

- (3) To bask appropriate of a to be of the project of the is responsible.
  - (A) To effect coordinables theng the second constants.
- (5) To menador and level a recorded unitational by economic performance and program coundinging as all continuous and so and including Sector (Province).
- (6) To propere operational guidances, alleged to an auditodines.
  - (7) To render advice, guidance and recommendation.
- (8) As necessary, to have funds and rise . . . . . . . available (within legal limitable no) for divise in lamenta-tion, through tasked agencies, all specific project .
- A. We identify the following specific program are a far immediate appointment of Fregram williams:
  - tions group, vote biller's Will adjourn the selection of intelligence program evaluation, areath and copilling the intelligence program evaluation, areath and dissemination by itself, and action programs responsive to intelligence intelligence intelligence in the wider. They will be view basic programs, capture that eaction start and proper functioning at all contilent. They will device and require a consolidated monthly report than Italy and intelligence Coordinator (ICAN) assessing the administration little ligence Coordinator (ICAN) assessing the administration intelligence of fort against it, problem areas, and openial accomplishments.

They will also develop and require a litting / Sector monthly narrative report requesting actions instituted against the VS infrastructure, forces utilized (as distinct from cilensive or defensive large unit military operations), problem areas, and reconsentations for further action.

(2) Sereming and Poblation Prometry. This group of three officers will conserv itself the sixth ortention program. It will specifically address itself to the factorial treatment of VO civil defendants, and to the court on and operation of an adequate Victimatese detention program for applies of the infrastructure. The Annex 1.

- (3) Interpossion Country is the M. this gram (6.5) officers) will conserv itself, joining with the interpose (6.5) Action and the Detention Program group, with all aspects of interpossion exploitation of infractive huma evidences, the whether POWs or civil detainess and VC defeators, including the proper functioning of various systems in teings, a spar and prompt feedback of information from higher to lever esheions, and so on. See Annex 2.
- e. Reports Management Group: Timeing, Furnished and Carnonition. This group will be composed of four officers, and a visual and MACV, a systems analysis specialist and a significant. The Reports Group will:
  - (1) Design and produce, in compulsation with the Intelligence and the Operations Graves, periodic repairs the fractions to and support of Corps and Soctor ICEM when the periodical ing and focuseing attention onto infrastructure absent. (See Annex 3.)
  - (2) Review existing supersing appears of all the clearate, as they relate to or lave a boarding multiplication of the clearate, for an .112 be from structure and our progress in this later. For an .112 be from structure of adoquacy, necessary, complete an exact to an appearation, requirements a compatible tion and integration. In conjunt to with the conjunt of complete. For conjunt and integration, and recommend as integrated and a supersisting.
  - (3) Provide appointing annularious in injection, contents of their analysis, fit well-results to continue to integration of intelligence collection and preference to be annex 3).
  - ( Process statistical out graphical portion of a financial process, and financial process, and financial contracts and contracts.)
  - (5) Prepare statistical analyses and assist in interpresentation of statistical data.
